Washington, D.C. 20554

Re: MEDIA MONOPOLY

Dear Commissioner Abernathy,

Have recently read information, (curiously, not reported in the national media) that the FCC is considering loosening or doing away entirely with regulations that limit the number of newspapers and radio and television outlets that a single company can own.

This is beyond comprehension. As more and more independent sources of information are absorbed each year by the ever growing monopolies, your consideration to deregulate our news is at a critical juncture. It is crucial that independent and unbiased news sources be maintained for the sake of allowing people to come to their own conclusions on vital issues affecting us and our nation, and not filtered or slanted by one source as is already the case by the Bronfman empires and the like.

I urge you to oppose loosening media ownership standards, and rather to support the tightening of standards that restrict the growth of the media monopolies in America.

Respectfully,

A handwritten signature in cursive script that reads "Fred Novota".
